

The Structure of Man Introduction Exercise

A) Monochotomy

- This model is the approach used by science and medicine. Science is the study of those things which can be measured. Science has not yet learned how to measure spiritual entities. Medicine has finally grown to the point where it realizes that the mind and emotions can impact physical health; but, throughout most of its history, medicine has focused exclusively on the body, leaving the mind to Psychology and Psychiatry.

- 1Co 15:45 And so it is written, The first man Adam was made a living _____; the last Adam [was made] a _____ (or *life giving*) _____.

 - b) The soul is the mind, will, and emotions.

D) Pentachotomy
